1. Claims 22, and 28-33 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 12-18. Note that the recitation "a compression assembly comprising" in claim 22 does not impart any significant meanings into the claim since claim 1 recites a compression system. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

This application is in condition for allowance except for the formal matter as set forth above. Applicant to address the duplicate claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. Note that the restriction as previous set forth is hereby withdrawn.
